Project Design Phase-Il
Solution Requirements (Functional & Non-functional)

Team ID	PNT2022TMID17071
Project Tittle	Signs with Smart Connectivity for BetterRoad Safety

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Visibility	Sign Boards should be made of bright coloured LED (such as red,green,yellow) capable of attracting driver's attention Not too distracting to cause accidents
FR-2	User Understanding	Should display information through means like images/illustrations with text so that the user can understand the signs correctly
FR-3	User Convenience	Display should be big enough to display all the signs correctly so that it is visible even to far away drivers
FR-4	User Confirmation	Phone confrimation

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Should be able to dynamically update with respect to time. Have to clear instructions that the government given to users.
NFR-2	Security	Should be secure enough that only the intended messages are displayed in the display.
NFR-3	Reliability	Should convey the traffic information correctly.
NFR-4	Performance	Display should update dynamically whenever the weather or traffic values are updated.
NFR-5	Availability	Should be on service 24/7.
NFR-6	Scalability	Should be modular and hence able to scale on servers horizontally.
